Mission & Description:

Institution Mission Statement: The mission of APT College is to provide online education in telecommunications, electric power, and renewable energy to industry personnel. APT College is committed to provide students with service excellence in support of their educational and professional goals.

Areas of Special Focus: Electric Power, Renewable Energy, and Telecommunications Technology

Description of Institution: APT is a leading national provider of telecommunications and electric power education and training. APT was founded in 1993 and is based in Carlsbad, California. Since the institution’s inception, the College has gained the reputation as a premier technical training provider for the telecommunications and electric power industries. APT offers career-oriented courses, professional certificates, and associate degrees designed to enhance student knowledge and skills. The APT College curriculum is designed using a multimodal approach that includes online (asynchronous) as well as blended classes. The student engages content and completes learning goals in APT College degree programs at a distance.

Average Tuition and Program Cost: The tuition for each course is \$250 plus \$37.50 per academic engagement hour. The total degree program cost does not exceed \$39,475 including general education.
